Table with columns: Object, Date, UT, alpha2000, delta2000, Mag., N Obs., and two columns of coordinate pairs. The table lists numerous minor planets and comets with their respective coordinates and magnitudes.

Table with columns for ID (e.g., 1999 RL124), date (e.g., 2003 07 08.38554), and numerical values (e.g., 21 30 23.30). The table lists various astronomical observations and coordinates across multiple entries.

2003 JULY 20

M.P.S. 82215

Table with columns for station ID, date, time, and coordinates. Includes stations like WF55, WG55, WR59, WB60, WJ67, WK69, WV87, WP90, WY92, WX146, WT148, WD178, XJ15, XA16, XN44, etc.

Table with 11 columns: ID, Date, Time, and numerical values with units. Rows include IDs like 2002 PV164, 2002 QF50, 2002 QD50, etc., with corresponding data points.

Table with columns: Year, Month, Day, Time, Lat, Lon, Az, El, Az, El, Az, El, Az, El, Az, El, Az, El. Rows represent astronomical observations for various stars and planets from 2002 to 2003.

2003 JULY 20

Table with columns for date, time, and numerical values. Includes headers for '2003 JULY 20' and 'M.P.S. 82223'. The table lists various astronomical observations with columns for date (e.g., 2003 KO9), time (e.g., 08.27853), and numerical values (e.g., 15 54 26.57). It contains two columns of data, with some rows having multiple values separated by spaces or tabs.

Table with columns for ID, Date, Time, and various numerical values. The table is organized in two columns of data.

Table with multiple columns containing alphanumeric codes, dates, times, and numerical values. The data is organized in a grid-like structure with varying column widths and includes some rows with multiple values in a single cell.

Table with 13 columns containing numerical data for each row, likely representing astronomical observations or measurements.

Table with 13 columns: ID, Date, Time, X1, Y1, X2, Y2, X3, Y3, X4, Y4, X5, Y5. It contains a dense grid of numerical data points organized in 13 columns and 955 rows.

Table with multiple columns of numerical data, including identifiers, dates, and values. Some rows include additional identifiers like 'R 1' or 'R' at the end.
